Dear Mr. Schoenbohm:

Congratulations on being selected as a convention alternate from Virgin Islands to the 2000 Republican National Convention. By representing your state as a convention alternate you will be playing an important role in the Republican Party. Our nominating convention and the general election will be defining moments in the history of our party and our country. I look forward to seeing you in Philadelphia and to your active participation and support in the upcoming months.

The Republican Party began last century with a successful 1900 Convention in Philadelphia, and went on to win the presidency, and retain and increase Republican majorities in the House and Senate. Now we are fast approaching the first Republican National Convention of the new century and new millennium, which will once again be held in the historic city of Philadelphia. The upcoming convention and elections promise even greater achievements for our party and our country. As a convention alternate, you will play a critical role in this victory.

We are blessed with an outstanding man as our nominee presumptive. After we formally nominate George W. Bush as our candidate in Philadelphia, we will work hard together to elect him President and give him a Republican Congress to implement his positive, reform agenda. You and I have been given the chance to change America. Thanks for being on the team.

Sincerely yours,

Jim Nicholson

Dear Mr Schoenbohm:

It has come to my attention that you are in the process of attempting to have your Amateur Radio license re-instated. I believe you are required to present evidence to the US FCC that you would contribute positively to Amateur Radio if you were back on the air.

I am writing this letter of support to you, and you can pass it along to whoever you feel appropriate. I do not know you personally, but you were an icon on the Amateur Bands for many, many years. You contributed to our hobby and service in many ways, such as organising lines of communications during hurricanes in the Caribbean, passing non-commercial traffic when appropriate, etc.

During contests and DX operations, you participated actively, and were listed among the top echelon in various publications related to our hobby. In my opinion, your enthusiasm and competitive spirit served as an example to others. I cannot foresee you behaving any differently should your license be re-instated, and I hope whoever makes this decision agrees. Good luck in your endeavours, and I look forward to hearing you on the airwaves in the near future.

Regards,

Paul M Dunphy VE1DX

**I don't know Herb personally, nor much about the situations leading to this action.**

**I believe that a positive attitude, and a better outlook and perspective on amateur radio has evolved and occurred with Herb.**

**The evidence that I have for this is from reading many email messages sent by Herb in recent months to the amateur radio community on a variety of technical and operating topics. These messages have all been positive and useful and demonstrate the qualities that I listed earlier.**

Dear Mr. Schoenbohm:

I have become aware that you are now in the process of attempting to have your Amateur Radio license reinstated. It is my understanding that you are required to present evidence to the Federal Communications Commission that should your license be reinstated, your participation in Amateur Radio would serve as a positive contribution to the service.

I am writing this letter as a testimonial of support for you. Please feel free to forward it to whomever you feel is appropriate. While I have never met you personally, I have heard you on the various bands over the years, and my feeling is that you have contributed to our hobby in the highest tradition of the service. You have voluntarily assisted during times of natural disaster, passed other non-commercial traffic when required, and generally operated your station in a manner consistent with being a good operator.

If your license were to be reinstated I am certain that your participation in the Amateur Radio service would serve as a definite asset overall, and you would continue to conduct your on the air operations in a manner which serves as an example to Radio Amateurs worldwide. It is my hope that whoever decides that your license be reinstated agrees with my assessment.

C. Michael D'Alto

Subject: Amateur Radio License Application from Herb Schoenbohm

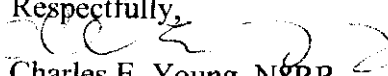

As a licensed Amateur Radio Operator for 40 years, I am writing to indicate my support for the issuance of an Amateur Radio License to Herb Schoenbohm by the Federal Communications Commission. I first contacted Mr. Schoenbohm by radio as far back as the early 1970's.

I believe that every individual who has violated a local, state or federal law or rule and been convicted or otherwise punished through the judicial system, in whatever format, deserves a chance for rehabilitation. The public interest is best served when every individual can contribute to society what he or she is capable of. I have followed Mr. Schoenbohm's recent activities, and believe him to be fully rehabilitated.

Mr. Schoenbohm was, in my estimation, an Amateur Radio Operator of exceptional technical and operating skill. One of the factors that has convinced me of his full rehabilitation is the sharing with others worldwide on the Internet of antenna theory, low noise receiving techniques, and propagation theory for medium wave radio frequency communication. This sharing has continued even though Mr. Schoenbohm is no longer licensed. One can tell that Mr. Schoenbohm has an inherent love for the radio art. I sincerely believe the public interest will be best served by granting Mr. Schoenbohm's license application.

Holding an Amateur Radio License is a privilege, one that I believe Mr. Schoenbohm would value highly under the circumstances. I expect if the application is granted he would comply with all the Federal Communications Commission rules and regulations to the letter. For the reasons stated, I respectfully ask the Commission to grant Mr. Schoenbohm's license request.

Respectfully,

  
Charles E. Young N8RR

Dear Herb,

I am most pleased for this opportunity to support you in your endeavor to renew your Amateur Radio Operator's License. Indeed, a successful outcome regarding renewal, would not only have a positive impact on our local amateur community, but even more so, would ultimately enhance the entire infrastructural safety of our Virgin Islands community as well!

I will try and be brief – which in itself presents quite a challenge, since there are so many areas of your involvement & support of amateur radio that I would like to elaborate on, such as:

- First and foremost, the manner in which you have so graciously taken full responsibility for your past actions and/or mistakes, along with the enthusiasm and tenacity with which you have continued to pursue your passion for re-entry into the exciting world of amateur radio.
- The way you have so generously given of your time & talent, to promote interest in amateur radio among local minority groups. A prime example of this is the role you played in assisting me in becoming actively involved on the airwaves, as the first African American female in the Caribbean, holding an Extra Class license – not to even mention the fact that the services provided by you and your son Chris (getting approval and subsequently installing the vertical antenna on the roof of my condo unit), were all done free of charge, as a measure of your concern for the safety of all other residents, in times of emergency.
- I could go on and on, but I'll just sum up by extending my sincerest best wishes for a favorable outcome, and look forward to once again experiencing your professionalism, your expertise, your unique personality, and most of all, your dedication to amateur radio – all of which our local community was once able to take for granted!

We Miss You ... Keep the Faith!

To Whom It May Concern

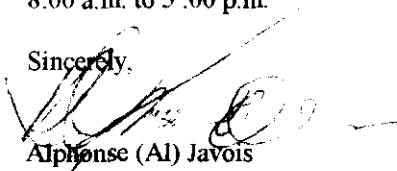

Please accept this letter as an official and enthusiastic recommendation of Herb Schoenbohm for a Ham Operator license. Mr. Schoenbohm already has a commercial license. As a HAM operator, Mr. Schoenbohm will be able to provide communications service, if and should the communications infrastructure be affected during a disaster or an emergency. Additionally, Mr. Schoenbohm has a wealth of knowledge about communications.

In my capacity as Deputy Director of Logistics, at the Virgin Islands Territorial Emergency Management Agency (VITEMA), I've had the privilege of working with Mr. Schoenbohm. Specifically during hurricane Marilyn and subsequent storms that have affected the US Virgin Islands. As a HAM operator after hurricane Marilyn, Mr. Schoenbohm provided information to the outside world about conditions of the US Virgin Islands. He conducted himself in a professional manner.

Please give Mr. Schoenbohm your most serious consideration. If given the opportunity, Mr. Schoenbohm will provide an invaluable service to the community during and after a disaster or emergency.

If I can be of further assistance to him, contact me immediately, at (340) 773-2244, Monday through Friday, from 8:00 a.m. to 5 :00 p.m.

Sincerely,

Alphonse (Al) Javois

Dear Commissioner Luke,

On behalf of the Virgin Islands Police Department, I wish to convey my utmost thanks for the assistance that your fellow employees gave during the 150th. Emancipation activities between July 2, 1998 and July 4, 1998. Their contribution to the dignitary protection detail was extremely valuable. We would not have been able to make the detail a success without their assistance in obtaining drivers and numerous vehicles to assist our officers.

The personnel listed below should be commended for their hard work and professional demeanor during a period when it was very stressful for those involved in planning the assignment.

1. Assistant Commissioner Samuel Baptiste
2. Deputy Commissioner of Transportation Howard Dyer
3. Mr. Godfred Thurland
4. Mr. Mr. Marcelino Perez
5. Mr. Elias Parris
6. Mr. Herbert Schoenbohm

Again, I would like to stress that your department's assistance was greatly appreciated. Thank you.

Sincerely,  
  
Ramon S. Davila
